## Region 9 Introduction

by Region 9 Team

We here from the Region 9 Officer Team would like to welcome you to the 2019-2020 school year. We are working hard to prepare for fall meeting and hope to see everyone there. But now is time to introduce you to the apparent theme of this year of FCCLA, "your story". This basically indicates how everyone has their own unique story and how those stories come together to shape not only our region but the whole state of California. We hope everyone can develop their stories further during this school year, with the help of the new officer team, and hope you have a blast along the way.

## ROTC Reflection

by Region 9 Team

Our Regional Officers are starting off the year strong, going through the fun hurdles of ROTC, also known as the Regional Officer Training Conference. At this event, taking place at CSU Fresno, we test, learn, and develop skills that will improve our performance at our positions, both individually and collaboratively.

At this event, we partook in several team building activities and workshops both created by us and other officers to help develop our leadership, speaking skills, unity, and overall knowledge of our positions and FCCLA as a whole. This event was not just a bunch of workshops and details about our jobs, but also a reflective period for the regional officers to get to know each other, having fun, sharing laughs, and overall learning more about one another. We hope we will be able to learn from this experience and work harder on events such as fall meeting, the chapter officer leadership training, and the spring regional meeting this year.

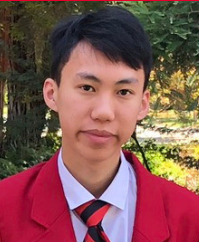

"It takes heart to inspire others."
