

# SCIENCE & MATH IN FCS

MAY 6, 2020

NAME

---

PERIOD

---

1. What subject areas does FCS Education include?

2. What are three benefits of math in Early Childhood Education?

3. What are four questions that a fashion designer would need to use science for?

4. In the video by Dr. Mark Liu, what changes did he make in the measuring process of clothing construction?

5. If clothes are not accurately measured during their design and construction process, how could this negatively impact a brand?

6. In your opinion, what FCS industry uses math and science the most? Why?
