State Project Goals!

State Project Goals are selected every two years. This year we present you with the three goals that the California Association will be focusing on from 2022 to 2024. The State Project goals for 2022 through 2024 are FACTS, Community Service, and Career Connection.

Career Connections helps members learn about themselves, workplaces, and careers, on their path to future success. Members gain the confidence to face the vast options that come with career planning.

FACTS stands for Families Acting for Community Traffic Safety, and gives members information and incentives for what it means to always drive safely. Members use their projects to educate adults and peers about traffic safety and supporting local rules and regulations.

Community Service helps members identify local concerns and complete projects to help the quality of life in their communities. Members learn character development, improve critical and creative thinking, interpersonal communication, knowledge, and prepare for careers.
